

MATERIAL SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product name: Sense toilet freshener 5 in 1 – Pine

1.2 Application: Toilet deodorization

1.3 Distributor identification

Well Done St. Moritz Kft.

Address: H-2900 Komárom, Mártírok útja 92. Hungary

Phone number: (36) 34 340 312, Fax number: (36) 34 540 129

E-mail: welldone@welldone.eu

www.welldone.eu

Emergency Call: Hungarian Health and Toxicological Information Service (ETTSZ)

Phone number: (36) 1 476-6464, (36) 06 80 201-199

SECTION 2: Hazards identification

2.1 Product classification

the product classified as a hazardous preparation / mixture.

2.2. Label elements

Acute Tox. (oral) 4, Eye Dam. 1, Skin Irrit. 2, Skin Sens. 1, Aquatic Chronic 3

Hazard pictograms: GHS05 and GHS07

DANGER

The mixture dangers / risks of warning H-phrase

H302 Harmful if swallowed

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H318 Causes serious eye damage.

H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements

P102 Keep out of reach of children.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P305+P351+P338 IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

P301+P330+P331+P311 IF SWALLOWED: rinse mouth. Do NOT induce vomiting. Call a POISON CENTER or doctor/physician.

Composition: sodium dodecylbenzene sulfonate, sodium laureth sulfate, sodium lauryl ether sulfate, a fragrance composition.

Ingredients according to the 648/2004 / EC: more than 30% anionic surfactant, 5-15% non-ionic surfactant. Perfumes (CITRAL,D- LIMONENE,LINALOOL) included.

2.3. Other hazards

Physico-chemical hazards: will not occur.

SECTION 3: Composition/information on ingredients

For full text of risk phrases, please refer to Section:16.

sodium dodecylbenzene sulfonate CAS No:25155-30-0 EU No:246-680-4	15-25%	Acute Tox. (oral) 4, H302 ; Eye Dam. 1, H318 Skin Irrit. 2 H315
sodium laureth sulfate CAS No:151-21-3 EU No:205-788-1	15-20%	Flam. Sol. 2, H228; Skin Irrit. 2, H315; Acute Tox. (oral, dermal) H302, H332; Eye Dam. 1, H318; STOT SE 3, H335; Aquatic Chronic 3, H412
sodium lauryl ether sulfate CAS No:9004-82-4 EU No:239-925-1	5-10%	Skin Irrit. 2 H315; Eye Irrit.2, H319; Aquatic Chronic 3, H412

Coconut fatty acid diethanolamide	5-10%	Skin Irrit. 2 H315, Eye Dam. 1, H318;
CAS No:68603-42-9		
EU No:263-13-9		
Fragrance composition	3-5 %	Eye Irrit. 2, H319;Skin Irrit.2, H315; Skin Sens 1, H317

SECTION 4: First aid measures

4.1 Description of first aid measures

Inhalation - Move to fresh air. If symptoms persist, call a physician.

Eye contact – Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 15 minutes. Get medical attention if symptoms persist

Skin contact - Wash off immediately with plenty of water and soap

Ingestion - Rinse mouth with water, drink 200 to 300 ml of water, do not induce vomiting. Immediately contact your doctor.

4.2 Indication of any immediate medical attention and special treatment needed

Medical assistance needed in case of ingestion and eye contact

Notes to Physician Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: Dry chemical, water spray.

5.2. Special hazards arising from : sulfur oxides, carbon oxides

5.3. Advice for fire-fighters: Special protective equipment for fire-fighters appropriate protective clothing and the ambient air-independent breathing apparatus

5.4. Other information: contaminated vaccines and other debris must be disposed of in accordance with local regulations.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with skin and eyes. During discharge of large quantities of required personal protective equipment.

6.2. Environmental precautions

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3. Methods and material for containment and cleaning up

Contain spillage, collect large amounts of product inert material with extreme absorbing properties, such as sand, peat and remove it in closed containers for disposal in accordance with the local regulations. with care to pre-prepared and labeled containers. The residue is removed with plenty of wet mopping.

6.4. Reference to other sections: See also Chapter 7, 8 and 13 sections.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Direct contact with the product, in contact with skin, eyes and accidental ingestion, inhalation of spray mist should be avoided. Do not mix with any other chemicals.

7.2. Conditions for safe storage, including any incompatibilities

Store in original containers, under cover, cool, dry place at. Protect from physical damage .Protect from direct sunlight Do not store together with foodstuffs.

Keep out of reach of children! Domestic and farm animals can not gain access to the medicine!

7.3. Specific end use(s): Toilet perfuming the air space

SECTION 8: Exposure controls/personal protection

Occupational Exposure Limits: no

8.1 General advice

Avoid contact with skin and eyes. After contact with skin, wash with plenty of soap-suds. When using, do not eat and drink. When using do not smoke. Keep locked up. Keep out of the reach of children. Keep away from food and drink. If swallowed, seek medical advice immediately and show the container or label.

8.2 Personal protection

Personal protective equipment is not necessary to use the airspace or comply with perfuming.

During discharge, handling large volumes, commercial operations compliant with EN 374 gloves (breakthrough time:> 480 min power levels: 6, nitrile rubber 0.44 mm thick, chloroprene:

0.5 mm thick butyl rubber: Depending 0.7 mm thick) is required, as well as protective clothing and EN 166 standard goggles, and the likely degree of exposure suit.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance – solid, tablets

Odour – characteristic of the product
Odor threshold - Not specified
pH – 10-11
Melting point - Not applicable Initial boiling point - Not applicable
Flash point - >100° C
Evaporation rate - Not applicable
Solubility - Not applicable
Ignition temperature - Not applicable
Decomposition temperature - Not specified
Viscosity - Not applicable
Oxidising properties - Not applicable under normal conditions of storage
9.2 Other information - No additional information

SECTION 10: Stability and reactivity

10.1. Reactivity - not typical
10.2. Chemical stability - stable under normal conditions of pressure and temperature
10.3. Possibility of hazardous reactions - not known
10.4. Conditions to avoid - high temperature
10.5. Incompatible materials - acids, alkalis
10.6. Hazardous decomposition products - There are no normal conditions of use of the product.

SECTION 11: Toxicological information

Targeted toxicological studies have been performed. It was assessed solely on the basis of toxicological data on ingredients, their classification and concentration conditions.

Acute toxicity: ATE (oral, rat): 1500 - 2100 mg / kg

Skin corrosion / irritation: product skin corrosion / irritation hazard class to be classified in category 2, because the amount of skin-irritating ingredients (Skin Irrit. 2) concentration of greater than 10%.

Serious eye damage / irritation: Based on the high concentration of the product of serious eye damage / eye irritation Hazard Classification Category 1 classified, such is classified components.

Skin sensitization: Based on the available literature data, the classification criteria are met, the product may be effective for skin sensitization: Skin Sens. 1

CMR (carcinogenic, germ cell mutagenicity and toxicity for reproduction): Based on the available data, the product is not classified CMR hazard point of view.

One time, respectively. After repeated exposure target organ toxicity (STOT): Based on available data, the classification criteria are not met.

Aspiration toxicitás not expected.

11.2. Symptoms of exposure to this product, effects:

Ingestion: Mucous membrane, respectively. gastrointestinal tract may cause irritation. Ingestion of large amounts may be harmful.

Skin: Long, persistent and repeated contact with the concentrated product may cause irritation.

Eye: Causes eye irritation in case of prolonged contact can cause severe eye damage.

SECTION 12: Ecological information

12.1. Toxicity - product specific studies have been performed. It was assessed solely on the basis of toxicological data on ingredients, their classification and concentration. The product poses a threat to the aquatic environment chronic, classification: Aquatic Chronic 3, this is classified on the basis of the components of total concentration.

12.2. Persistence and degradability - No data

12.3. Bioaccumulative - No data

12.4. Mobility in soil - No data

12.5. Results of PBT and vPvB - No data

12.6. Other adverse effects - no data

SECTION 13: Disposal considerations

Product disposal: In accordance with local regulations.

Packaging disposal: In accordance with local regulations.

SECTION 14: Transport information

14.1. UN Number - Not applicable

14.2. Proper shipping name - Not applicable

14.3. Class (es) Transport - Not applicable

14.4. Packing group - Not applicable

14.5. Environmental hazards - Not applicable

14.6. Special precautions for user - Not applicable

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code - Not applicable

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Regulation (EC) No 1272/2008 of the European Parliament and of the council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 Minister of Health Regulation of September 28, 2005 on list of hazardous substances, their classification and marking (Journal of Laws No. 201, item 1674, 2005); Minister of Health Regulation of September 2, 2003 on criteria and classification measures for chemical substances and preparations (Journal of Laws No. 171, item 1666, 2003); Minister of Economy Regulation of December 21, 2005 on basic requirements for individual protection measures (Journal of Laws No. 259, item 2175, 2005); Hazardous Products Transport Act of October 28, 2002 (Journal of Laws No. 199, item 1671, 2002); Minister of Health Regulation of September 2, 2003 on marking requirements for containers with hazardous substances and preparations (Journal of Laws No. 173, item 1679, 2003) Composition and microbiological purity must conform to valid directives of EU. Neither the ingredients nor the preparation classify as "Dangerous" by the criteria of European Community Directive 93/21/EEC which sets out a revised Annex VI to the Dangerous Substances Directive 67/548.EEC. Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC (Official Journal of the European Union L 396, 30.12.2006) Communication of the Commission concerning the date of mandatory application of the updated inventory and common nomenclature of ingredients employed in cosmetic products (Official Journal of the European Union C 10, 16.01.2007) Commission Regulation (EC) No 907/2006 of 20 June 2006 amending Regulation (EC) No 648/2004 of the European Parliament and of the Council on detergents, in order to adapt Annexes III and VII thereto (Official Journal of the European Union, L 168 z 21.06.2006 r.)

15.2. Chemical Safety Assessment: not completed.

SECTION 16: Other information

Explanations used for the hazard

Skin Sens 1.: Skin sensitization, category 1

Skin Irrit. 2.: Skin irritation, category 2

Eye Dam. 1.: Severe eye damage, category 1

Eye Irrit. 2: Eye irritation, category 2

Acute Tox.4: Acute toxicity, category 4

Aquatic Chronic 3: It is hazardous to the aquatic environment, chronic threat, category 3

Flam Sol 2: Flammable solid, category 2

STOT SE 3: Organ toxicity, single exposure, category 3

H phrases (indications of danger) used in step 3 Safety Data Sheet:

H228 Flammable solid.

H302 Harmful if swallowed.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

H318 Causes serious eye damage.

H332 Harmful if inhaled.

H335 May cause respiratory irritation.

H412 Harmful to aquatic life with long lasting effects.

Sources Material Safety Data Sheet has been prepared based on information contained in the Safety Data Sheets of raw materials used and literature data.

Date of issue: 04. August 2016.
